Play Dough Recipe

Cooking dough

You need:

- Saucepan
- 1 cup of salt
- 2 cups of water
- 2 teaspoons of Cream of Tarter
- 2 tablespoons of Cooking oil or baby oil
- 2 cups of plain four
- A few drops of food colouring

Use the same size cup for measuring all ingredients.

Mix all of the ingredients together in a pan. Cook the mixture over a medium heat, stirring all of the time. The mixture will look like scrambled egg and start to come away from the pan. A lump will form, remove from heat and knead. When the play dough has cooled down it can be stored in an air tight bag or box.
